Graduated in Computer Science from ULB with high honors, I've been passionate about programming since I was 14. I worked on many personal projects, including Rentizy, a real estate management MVP developed with three teammates. After my master's, I spent eight months traveling across Latin America while still contributing to the project. I decided to leave it in January to fully enjoy the rest of my trip.

## EDUCATION

**Université libre de Bruxelles** |

Brussels, Belgium, and Montreal, Canada
